

Manitoba MARLINS

Photography Consent Form

The Manitoba Marlins Swim Club takes pictures to provide information and to highlight the activities and accomplishments of our swimmers. Occasionally, this may involve posting a picture showing an individual swimmer or a group of swimmers on our website, sending a picture to the media, or using a photograph for marketing purposes.

If a swimmer's picture is used:

- Personal information such as phone number, address, etc. will not be published.
- Write-ups will not include information that indicates the physical location of a swimmer at a given time other than attendance at a particular activity or meet after the fact.

Swimmer's results are also posted on our website. As this is age group swimming, the swimmer's name, gender, age, and results are automatically included in these reports. We also post swimmer's best times.
